To whom it may concern,

I am part of the center team at Spaces Fitzrovia who provide serviced offices, coworking desks and membership to clients. We have been opened since March 2018 and we are the flagship center in the UK and I am writing to recommend the contractual services of Edward Zarkovas.

Edward has helped us massively, being our go-to project manager for all build works carried out at this center from the time we were introduced to him early this year up until now. His knowledge and attention to detail have aided in completing small as well as large projects keeping our center up to standard and most importantly keeping our clients happy.

I feel confident in recommending Edward's services as he is not only thorough but also extremely easy to work with, always willing to take the time to discuss any concerns and responds to questions in a timely manner.

Our business relationship with him has been both pleasant and effortless which is why I recommend Edward as I am confident he will deliver!

If you have any questions please do not hesitate to get in contact with any of the center team.

Regards, Spaces Fitzrovia
